Keep on schedule and within budget

Hundreds or maybe thousands of clients need to be rolled out, tested and personalized all in accordance to strict company policy and ready for use within, what seems like an always to short time frame?

The SSI and the SoftService consultants are one of the most successful teams today. Compliance to time constraints and budgets are top priority with us.

We support you:

The preparation phase

- Erection of an pilot environment
- Definition of standard clients
- Planning of workflow organization
- Comparison of goals and conditions
- Installation and Implementation of SSI

During the Rollout

- On location support as project leader or Consultant
- Adaptation of the SSI into changed environment
- Quality control

Please contact us

Whether it be the rollout of several thousand clients, the integration of mobile devices or administrative tools, SoftService and its partners can help find and implement a solution that's right for you.
